Here's what past participants have said about the course

Dashboard Reporting is certainly a valuable approach. I've improved upon many useful areas of Excel.

Muhammad Farooq, CFO – Allied Marketing

Excellent course! Despite having good knowledge of using Excel, I've learnt a lot of new techniques and formulae.

Nausheen Abdul Aziz, Manager Talent Acquisition – NIB Bank

I've learnt many features of Excel that I had not explored previously. A course well planned and delivered!

Farooq Salim, Business Analyst – Engro Corp.

A very informative course with superb presentation by the instructor. It surely contributed to my skills and knowledge.

Tahir Ahmed Khan, Manager HR – Allied Bank Limited

Course Overview:

In today's knowledge age, information is the lifeblood of any organization. Right information at the right time will enable decision makers to make decisions both timely & effectively.

You can present information like a newspaper and dump all the available data into your spreadsheets, but the definite way to do the same is presenting information which leads to correct decision making.

This unique two-day workshop is designed to provide you with the knowledge and tools enabling you to create Dashboard Reports to present Operational, Strategic & Financial Data in an effective way. This interactive, participative and practical workshop will equip you with valuable tools readily applicable at your organization.

Learning Objective:

This course will focus on the understanding of Dashboard Reporting, its components, design issues that are to be considered while creating a Dashboard Report and the use of Microsoft Excel to develop fully functional Dashboard Reports. This scenario-based course will simulate different real world situations that will be discussed along with their practical working solutions.

Who Should Attend?

This course is specially designed for middle to senior level executives with **basic to intermediate** level expertise in using Microsoft Excel.
