## Course Director Ahmed Zafar

Ahmed Zafar has over 20 years of multi-industry experience during which he has managed country and regional operations, directed business strategy and incubated lines of businesses.

Ahmed has worked with Philips International as CEO (Pakistan), Project Manager, Central & Eastern Europe (Czech Republic) and Country Manager (Uzbekistan). He has also worked with Savola International (Iran) as the General Manager responsible for business operations in the CIS region.

His broad functional experience includes General Management, Strategic Planning, Business Development and Organization Excellence. He has also worked in the Internal Audit function as a Risk Management specialist, tasked with the responsibility of determining business risk exposure to country and business operations.

The opportunity of working in leading multinationals has given Ahmed a unique insight to the ways of working in high performance organizations that deliver sustained business results, meet strategic objectives and retain key people.

# Strategy Planning & Execution

November 23, 2013 - Pearl Continental Hotel, Lahore | November 30, 2013 - Sheraton Hotel, Karachi

## Course Overview:

Strategy is a plan of action designed to achieve a vision by sustaining a long term competitive advantage. Businesses invariably lose ground to competitors because they lack focus on strategy and the determination required for taking a strategic plan to its logical conclusion.

To develop and implement a successful strategy will drive sustainable business results, profitable growth and achievement of long term objectives.

### Strategy deals with the following questions:

- ▶ Where is the business trying to get to in the long-term?
- ▶ Which markets should a business compete in?
- ▶ How can the business perform better than the competition?
- ▶ What resources are required to compete?

The session explains how strategy needs to fit organizational capacity and capability, be developed with a focus on implementation and involves a comprehensive analysis of a business in relation to the industry, competitors and the business environment.

### Is your organization capable of profitable growth?

Involves a step-by-step approach in building a winning strategy and enables the audience to understand deliverables of tools and techniques employed in the development of a coherent strategic plan.

## Who Should Attend?

Strategy is the responsibility of all C level executives. It is recommended that all managers involved in the strategy development process attend this workshop.

Participants of Ahmed Zafar's previous course Strategy Planning & Execution held on November 7 & 8, 2012 - Karachi

It was an outstanding training. I can actually relate these learnings to my practical work.

The 7S model - no one could have explained it better!

He presented it wonderfully. It was a great workshop. Thank you Octara.

I discovered the use of power words in mission to enable the vision. Ahmed Sb. knows how to deliver it!

## Course Agenda

### Module 1

- **Understanding Strategy** - understand what strategy does for your organization and business.
- **Uphold your Vision** - understand relevance of the mission and vision and their influence on strategy.
- **Strategic Planning** - realize the deliverables of value curves and how they can be used to plot a strategy map.
- **Levels of Strategy** - comprehend functional, business and corporate levels of strategy and the tools required to identify competencies that support these levels.
- **Types of Strategy** - cost leadership, differentiation and focused strategy will be discussed with examples of global leaders in each category.
- **Portfolio Strategy** - knowing what business an organization should retain, what to focus on and what to liquidate or sell with the help of the Boston Consulting Group Matrix (BCG matrix).
- **Organizational Alignment with Business Goals** - using the 7S model, develop an understanding of how a company achieves leadership through the right 'fit' of systems, styles, shared values, staff, structure and strategy.
- **Manage Forces that Shape Industry** - recognize the 5 forces that shape industry dynamics and identify threats arising from suppliers, substitutes, buyers and new entrants.
- **Integration and Value Chain** - their role in Strategic Planning.

### Module 2

Organizational alignment with business goals, managing forces that shape industry dynamics and roles of integration and value chain in strategic planning.

- **Translating Strategy into Action** - Strategy needs a Management System that keeps track of financial targets and at the same time monitors the progress of capabilities and capacities required to achieve them.

This will be explained through the Balanced Scorecard (BSC).

- ◆ The Balanced Scorecard as a Strategy Management System
- ◆ Relevance and importance of the Balanced Scorecard
- ◆ The 4 perspectives of the Balanced Scorecard
- ◆ How to build a Balanced Scorecard
- ◆ Cause and effect relationships
- ◆ Deliverables of the Balanced Scorecard

- **Hands-on exercises** - on understanding the tools for the execution of a strategy through the Balanced Scorecard.
